

No one said moving office was going to be easy

75% of small and medium-sized companies **delay a move because of the stress involved**⁽¹⁾

Installing a completely new traditional, fixed-line phone system is a hassle

The future is cloud business phone services

Cloud grows with your business

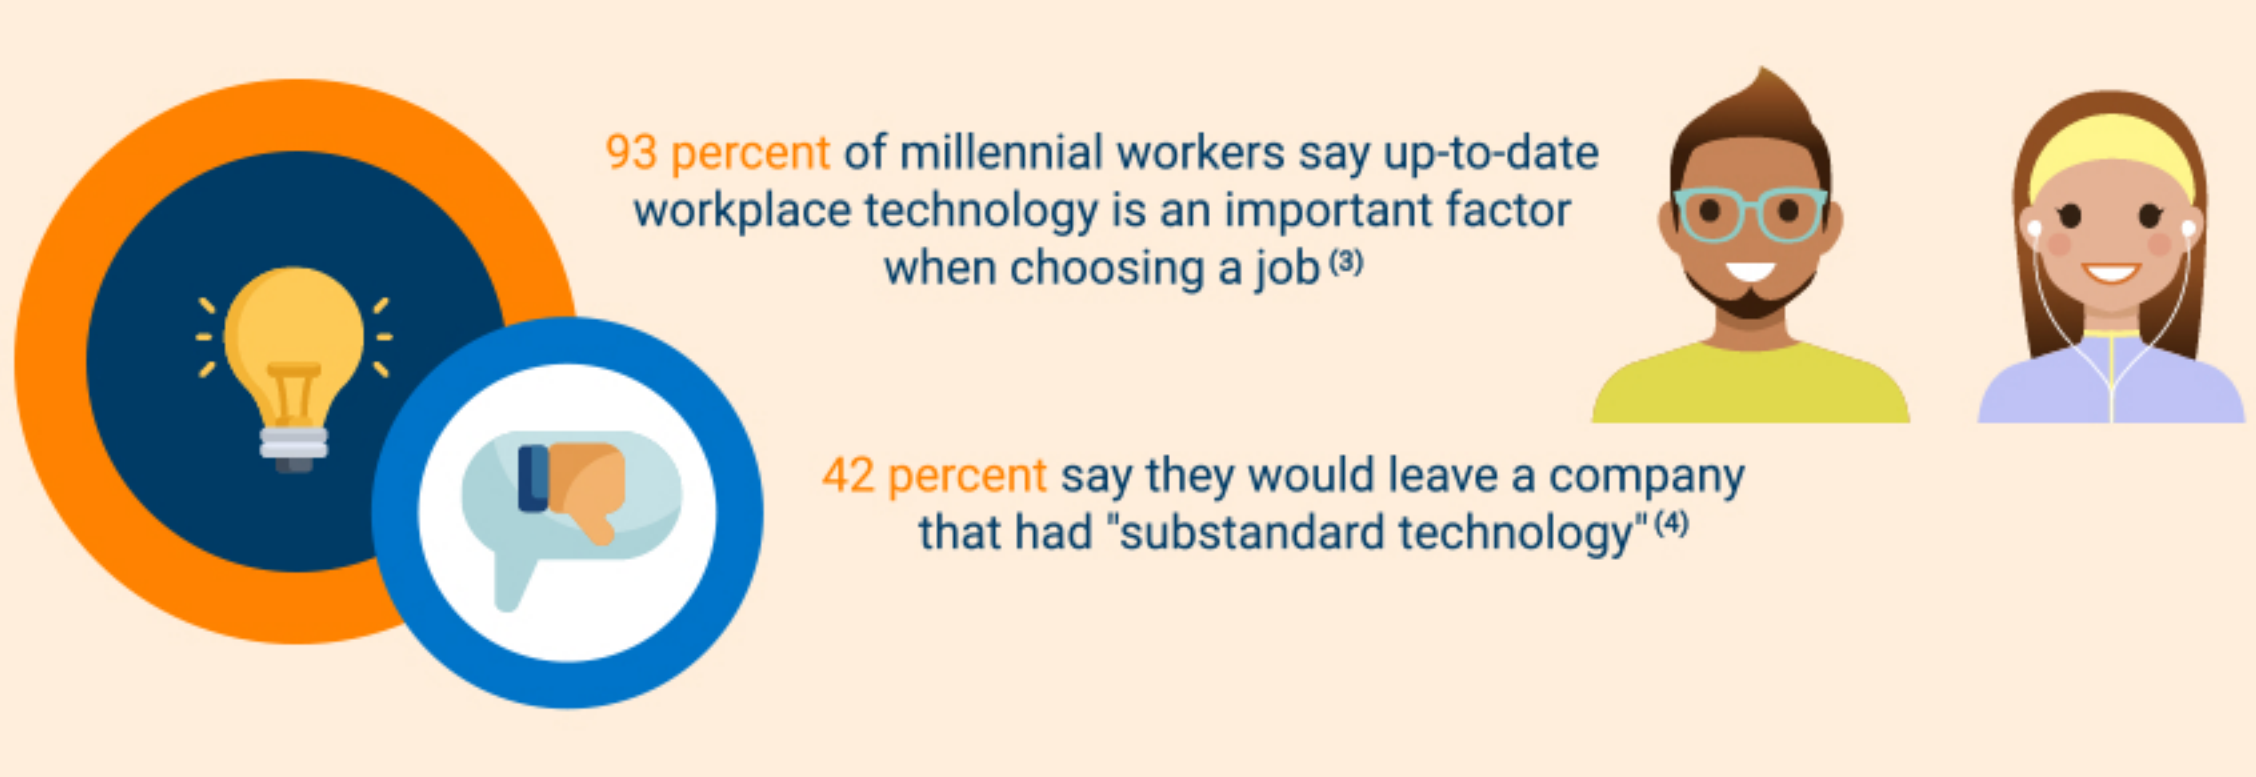

Cloud is ideal for today's mobile or remote workforce

A new office deserves up-to-date technology

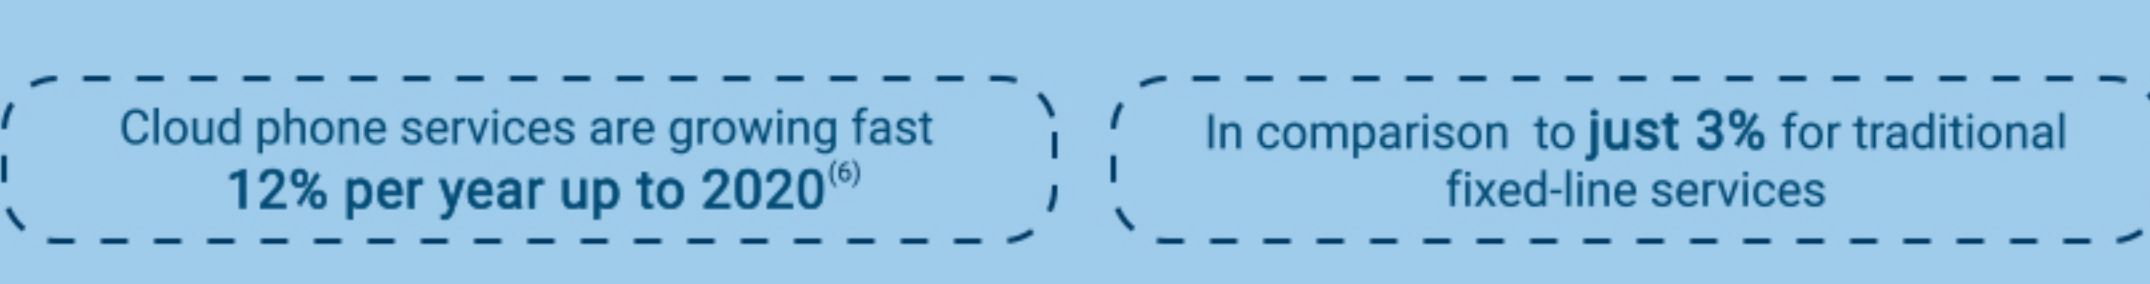

Millennials will love it

Moving office is expensive - cloud helps keep costs down

Because it's in the cloud you can **save 30 - 40%** over 5 years compared to traditional systems – with far greater functionality⁽⁵⁾

Future proof your phone system

Traditional landline voice networks will be shutting down by 2025, so now is the ideal time to upgrade

- Vonage is the world's leading provider of business communications, including voice, chat, video, and messaging
- With over 700,000 business users
